

## In-class Exercise

### Due: End of the class time

- Work from the Exercise.html file
- All work in this exercise should be accomplished using Bootstrap.
- Make the page look like After1.pdf when user is on a display smaller than medium size < 992px; The page should look like After2.pdf otherwise.

#### Tips:

1. Note the changes on top “Project name Home About” section.
2. Note the changes in the three “Headings”
3. Note the change in the “New” button
4. Note the change in “Go some place”
5. Note the added bootstrap form on the bottom; feel free to add any entry in the “State” drop down menu.
